

# SPACEFRAME

## Versatile & Flexible

SpaceFrame utilises 100% recyclable aluminium, plastics and metal clips in its construction; we made sure that because of this resource versatility, SpaceFrame could be configured to 30 different designs and styles to display at the highest visibility. With a vast all-round graphical layout, it ensures that your message is seen and heard clearly. SpaceFrame features interchangeable panels, components and is highly suitable for showroom and retail exhibitions.

## SATURN 10

10 designs from Saturn

Item	Ball	Aluminium Tube				Plastic Clip	Metal Clip	Plastic Foot	PP Board		Table Top	Triangle Table Top	Spanner
Size(mm)		1000	707	500	353				353 x 707	1000 x 707	500 x 707		
Quantity	24	10	22	10	5	32	10	8	2	4	2	2	1

Total components inside the box:

Weight : 45kg

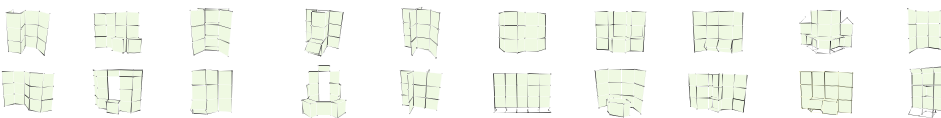

Why pay more when you can own many different modular designs at the price of one?

## JUPITER 20

20 designs from Jupiter

Item	Ball	Aluminium Tube				Plastic Clip	Metal Clip	Plastic Foot	PP Board			Hex. Table Top	Table Top	Spanner
Size(mm)		707	500	353					707 x 707	353 x 707	500 x 707		500 x 707	353 x 707
Quantity	38	48	6	12	100	12	12	12	15	10	4	1	1	2

Total components inside both boxes:

Weight : 63kg

### Anodised Ball

Anodised ball has 18 threaded holes to achieve 45°, 60°, 90°, 120°, 135° & 180°.

Material:  
Plastic M12 (Chrome finished)  
Diameter: 4.7cm

### Aluminium Tube

The tubes have threaded ends on both sides to introduce tensile of forces into the ball.  
Material: Recycled Aluminium  
Length: 25cm / 35.3cm / 50cm / 70.7cm / 100cm

### Metal Clip

Support wooden or acrylic table tops. The clips had both adjustable ends to create a more solid grip on the tubes.

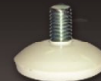

Material: Stainless steel

### Plastic Clip

Flexible and well designed push-in clipper helps to hold and grip board or artwork from sliding.

Material: Recycled Plastic

### Plastic Foot

This adjustable footer is normally used to stabilize the whole system from uneven surfaces.

Material: Recycled Plastic
